Telecommunications Enhancements

On September 21, 1998, modifications were made to the DEFINITY Generic 3 telecommunications system that impacted dialing procedures for internal, local and long distance calls. If your telephone number begins with 359, 576 or 961 (PSC only), these modifications will apply.

To reach an extension in the Complex, including the Mississippi Department of Health, you may utilize our five digit dialing feature as follows:

For 359 numbers, dial 9 + extension number;

For Health 576 numbers, dial 6 + extension number;

For the PSC 961 numbers, dial 1 + extension number.

Dial 90 to access local and long distance dialing.

New Calling Cards

Effective August 15, 1998, the state began using the new calling cards. Your new calling card should have ITS printed on the front. The dialing instructions are slightly different and are printed on the back of the card for convenience.

Telephone Directory January 1999

This directory is provided for the use of state agencies and their employees by the Mississippi Department of Information Technology Services (ITS). ITS is responsible for management and administration of statewide governmental communications services for the State of Mississippi.

About This Directory

This information is used not only to update the State Directory, but also to insure the timeliness of records maintained by the State Information Operators. The Operators are supplied with departmental and personnel listings, which are updated frequently between editions of this directory. For this reason, it is imperative that you report promptly any change to your telephone listing to your Telecommunications Coordinator.

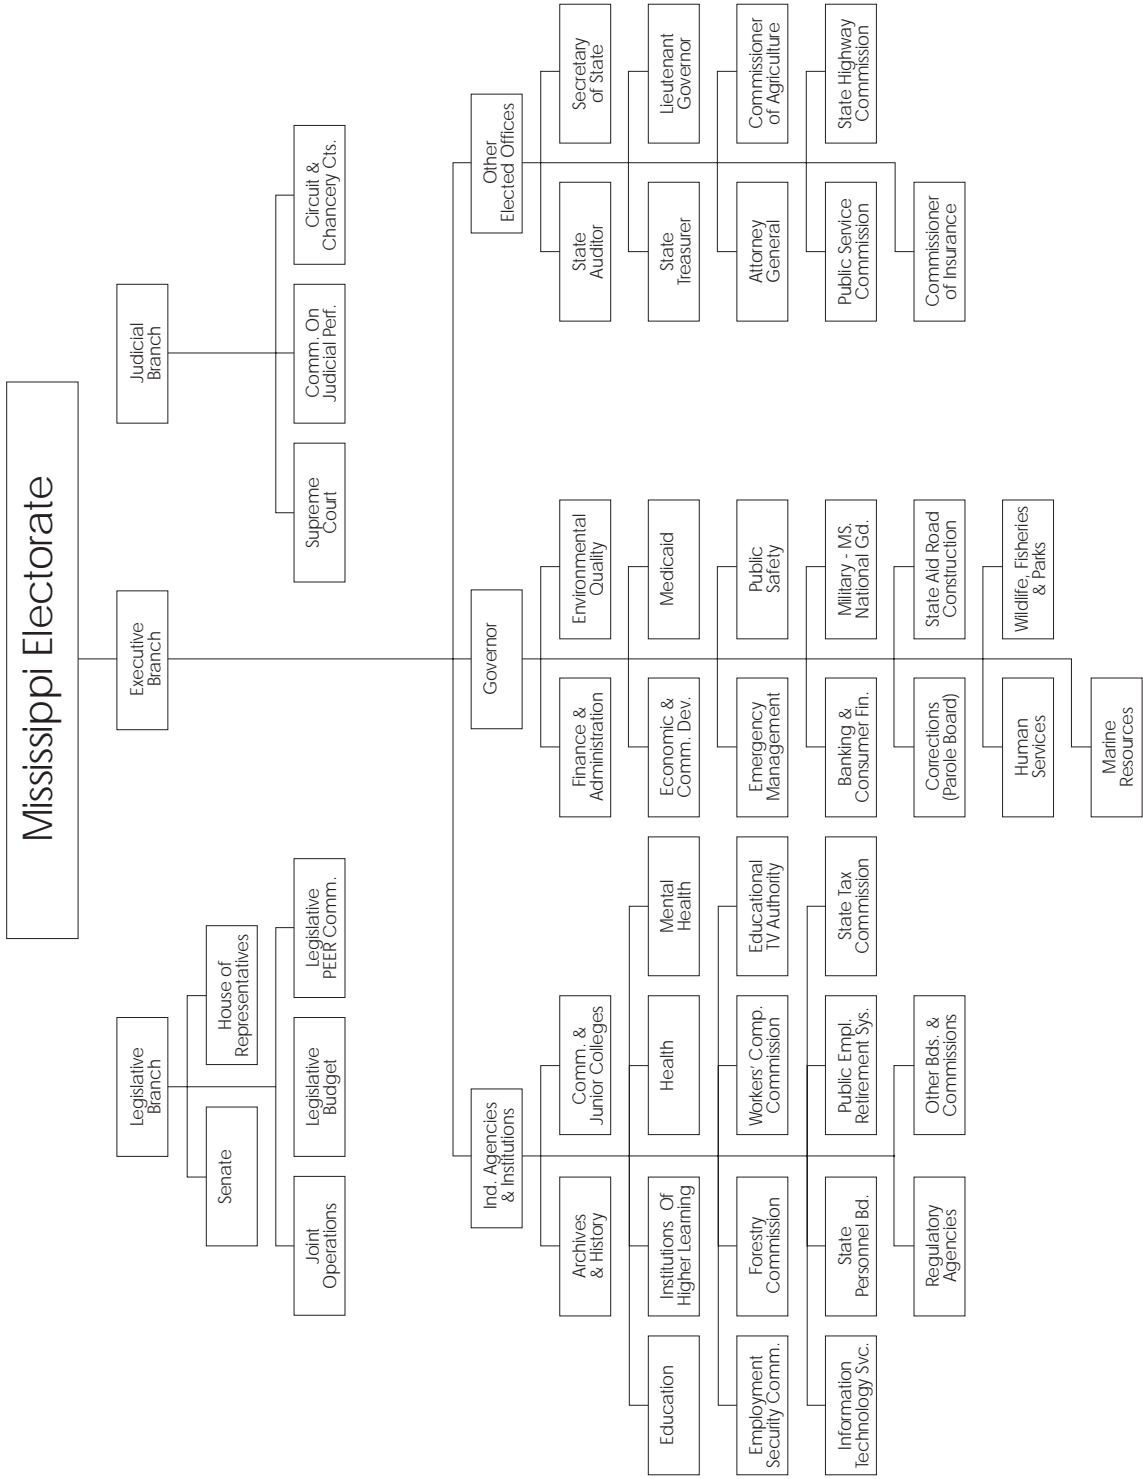

Notice

This directory is compiled from listings furnished by state organizations and personnel. It is only as accurate as the information furnished. The effective date of publication is October 1, 1998.

This directory is published at regular intervals for use by state employees. All departmental changes and any corrections, additions and deletions should be submitted immediately to your Telecommunications Coordinator.

4. Hang up and the party is connected.

Conference Calls

To Conference On A Multi Line Telephone Set

To conference up to a 6 party call (which includes caller and 5 other callers)

1. With 1 caller on the line press the CONFERENCE button.
2. Listen for the dial tone.
3. Dial the NUMBER to be conferenced.
4. Press the CONFERENCE button.
5. Continue until all parties have been conferenced.

To Conference On A Panasonic Telephone Set

1. With 1 caller on the line press the FLASH button.
2. Listen for the dial tone.
3. Dial the NUMBER to be conferenced (3rd party).
4. Press the FLASH button.

*** If the call consists of more than 3 parties, call the State Operator by dialing (0). The Operator can conference up to 6 parties including the operator.

To Call Pickup

This feature allows a customer to answer a ringing station within the assigned pickup group.

1. Dial the CALL PICKUP Code (#4) to answer a ringing telephone within your pickup group.

*** Your instrument and the ringing telephone must be in the same pickup group, or you will receive an error tone. Be sure that you have a dial tone before dialing the #4. If two telephones are ringing, the pickup is random and you will pickup one of the two, not necessarily the first ringing telephone. You will receive an error tone if the ringing telephone has already been answered.

To Call Forward

Calls to your station may be temporarily forwarded to another station.

1. Lift the handset for dial tone.
2. Dial the call forwarding code (*2).

3. Listen for the special dial tone.
4. Dial the five digit station number or the number to which you wish your calls to be forwarded.
5. Listen for the CONFIRMATION Tone (3 beeps) indicating that call forwarding has been accomplished.
6. Hang up.

To Cancel Call Forwarding

1. Lift the handset for dial tone.
2. Dial the call forwarding cancel code (#2).
3. Listen for the CONFIRMATION Tone indicating that Call Forwarding has been removed.
4. Hang up.

To Send All Calls (SAC)

Calls to your station may be temporarily sent to your coverage point, which is set up by the System Manager.

1. Lift the handset for dial tone.
2. Dial the SAC code (*3).
3. Listen for the CONFIRMATION Tone indicating that SAC has been accomplished.
4. Hang up.

To Cancel Send All Calls (SAC)

1. Lift the handset for dial tone.
2. Dial the SAC cancel code (#3).
3. Listen for the CONFIRMATION Tone indicating that SAC has been removed.
4. Hang up.

To Make Long Distance Calls

1. Lift the handset for dial tone.
2. Dial 90 plus your ten digit long distance number.
3. Your call is complete.

To Make Long Distance Calls Using Authorization Code

1. Lift the handset for dial tone.
2. Dial 90 plus the ten digit long distance number.
3. Listen for the CONFIRMATION Tone — enter your seven digit authorization code.
4. Your call is complete.

Aspen Voice Mail Instructions

The ASPEN voice processing system is a high performance, 24-hour message center that features the following applications:

Telephone Answering provides telephone coverage when a telephone is busy or unanswered. Callers are routed to the mailbox.

Voice Mail allows mailbox owners to send messages to other mailboxes, retrieve messages, reply to messages, send copies of messages to other mailboxes, and save and erase messages.

Information Center Mailboxes (ICM) are used to store recorded announcements that can be heard by anyone dialing a specified telephone number. These mailboxes can be configured as "voice bulletin boards" (listen-only mailboxes) or they can allow callers to record replies to announcements.

Automated Attendant answers telephone calls and prompts callers to enter a desired telephone number or spell the person's name (if telephone number is unknown). The attendant transfers the callers to the telephone and routes them to the mailbox if busy or unanswered.

Custom Call Routing presents callers with a menu of single digit options. Callers choose an option and are routed to a telephone or mailbox.

OctelForms prompts callers with custom-developed questions in a specific sequence. Callers respond to questions step-by-step with answers that can be manually transcribed

How Do You Use ASPEN?

ASPEN has its own telephone number, 359-6400, so you call it just like you would any other telephone. When accessing the system in the voice mail mode, a "touch-tone" telephone must be used.

There are 3 ways to access the system:

From your personal "359" ext.

Dial "96400"
Enter password

From another "359" ext.

Dial "96400"
Depress "*" key
Enter 5-digit mailbox number (same as 5-digit ext.)
Enter password

From a "non-359" ext.

Dial "359-6400"
Depress "#" key
Enter 5-digit mailbox number
Enter password

When entering the system using an AT&T calling card, don't press "#" too quickly. The telephone company will think you want to make another calling card call. You should wait until ASPEN's initial entry prompt has finished.

How to Set Up Your Mailbox

When you access the system for the first time from your personal ext., the tutorial begins immediately after dialing "96400". When you access it from any other ext., it begins after entering the 5-digit mailbox number.

The tutorial prompts you to change your temporary password to a personal password (6 to 15 digits), record your

name (first and last) and record a personal greeting. An appropriate greeting would be similar to the following:

"Hello, this is _____ I am not available to take your call; but if you will leave your name, telephone number and a detailed message, I will return your call as soon as possible. If you need immediate assistance, please dial "0" and stay on the line."

How to Review/Send Messages?

At the Main Menu, Select option 1 to Review Messages:

Messages will begin playing
After hearing each one, you may:
Erase the message, by pressing 7
Reply to the message, by pressing 8
Save the message, by pressing 9

Select option 2 to **Send Messages**:

Record your message, then press "#"
Enter the destination number of the recipient
Send the message, press "#"
Return to Main Menu, Press "*" **To disconnect from the Main Menu press "**"**

A few tips that will help you as you use ASPEN:

Tips for mailbox owners

Press "0" if you need help, more explanation or want more options. (If you don't press anything, ASPEN will repeat your options to help you.)

Press "0"- "0" at any time to reach an operator if one is available.

Press "*" any time you want to cancel what you are doing.

During recording, press "*" to erase and re-record.

When entering a destination number, press "*" to re-enter if you make a mistake.

While listening to a prompt, press "*" to "back up" to a previous menu.

At the Main Menu, press "*" to disconnect.

Whenever ASPEN says to "enter" something, you must do it by using the keys on your telephone keypad.

Press "#" whenever you want to complete a step, skip a message, or send a message.

Press "#" to denote the end of a variable length number, like a password, telephone number or group distribution list. This prevents the system from having to wait to see if you have finished entering digits.

Press "##" to bypass new messages and review the archived ones.

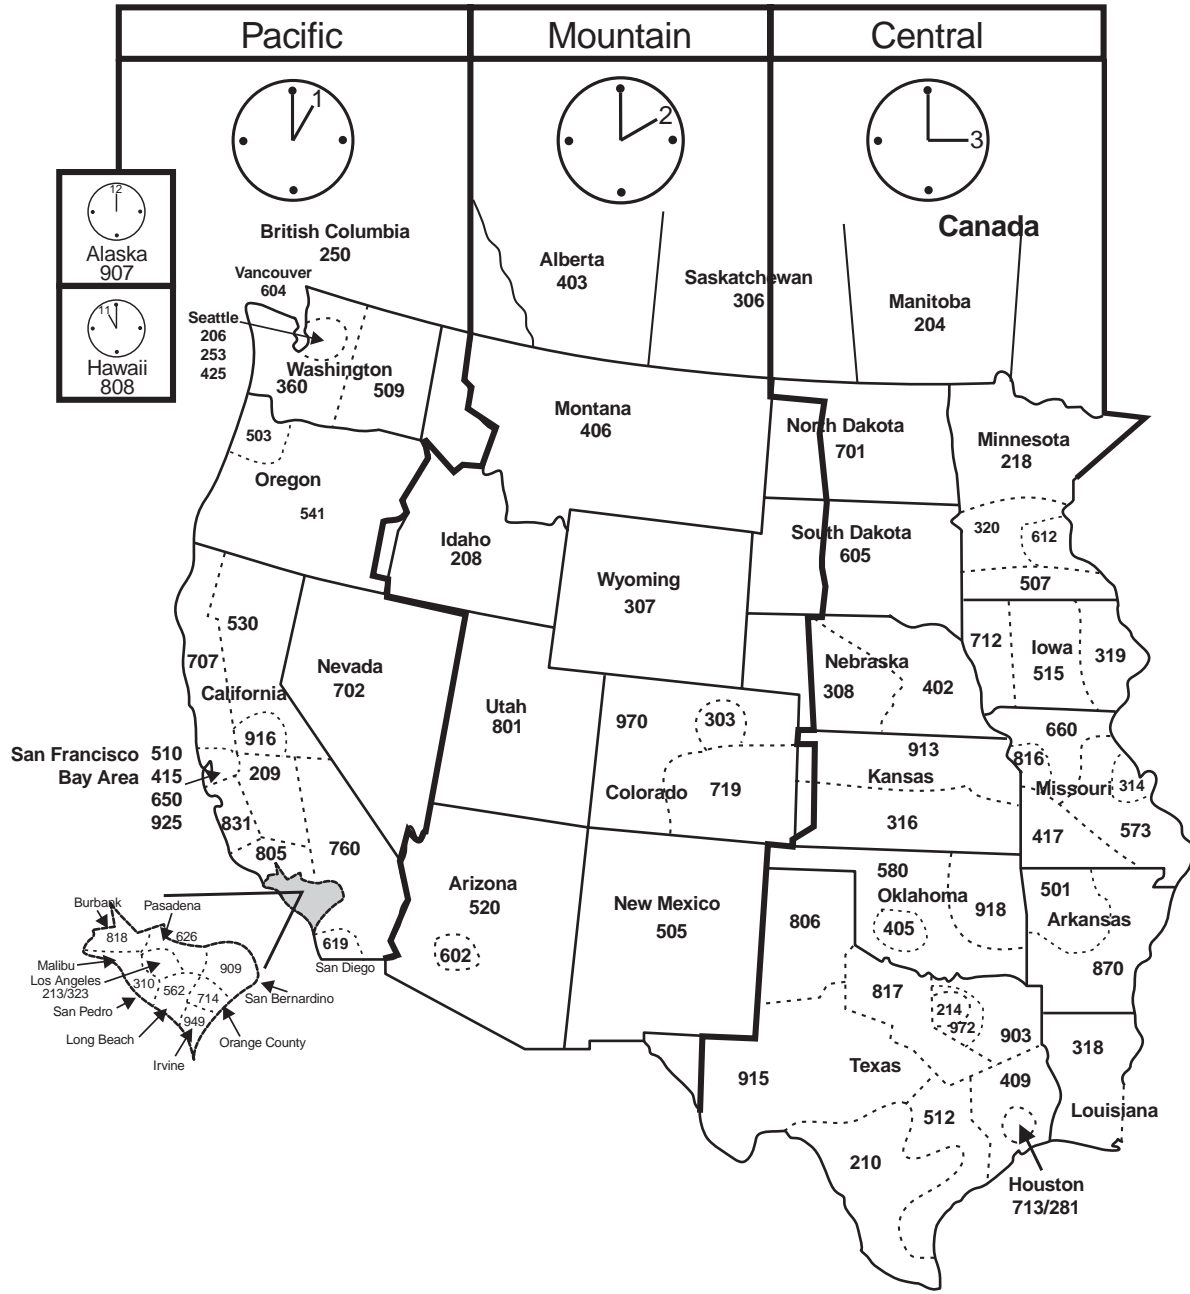

Tips for Callers

Press "#" to bypass the personal greeting and record immediately after the tone. (An extended absence greeting used in place of a standard personal greeting to inform callers of absence, cannot be bypassed.)

When dialing a telephone number that has forwarded to ASPEN'S system greeting instead of a personal greeting, dial the 5-digit telephone number of the person you're calling. Example 359-6332 = 96332 (5-digit)

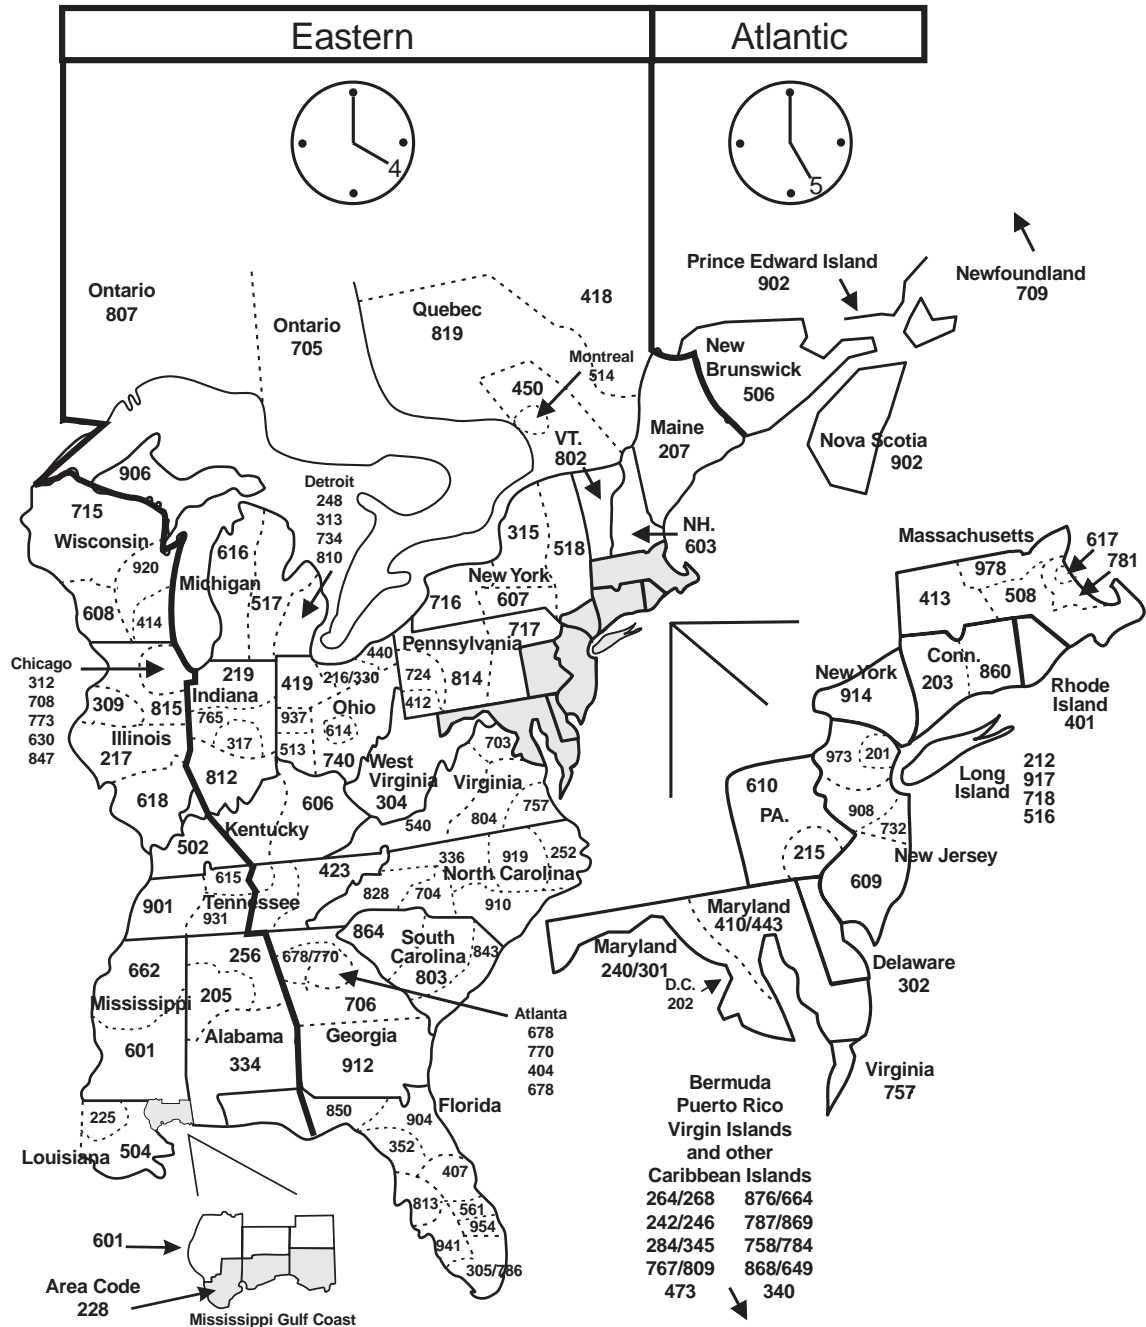

Many other useful features and functions are available. This information can be obtained from Voice Services or through Voice Mail Training Classes. **For more information call 359-6332.**

ITS maintains the official State of Mississippi web site which lists all the official state government web sites and many other non-official sites that assist users in finding information about Mississippi. Access this site at: <http://www.state.ms.us>.

All state agencies are encouraged to use the following, commonly accepted Internet naming convention — *www.agencyabbreviation.state.ms.us* — when naming or renaming their sites. Please notify ITS of the creation of new web sites and changes to existing ones by sending E-mail to webmaster@its.state.ms.us. These changes will be reflected in the state site described above and will be distributed to other webmasters within the state that maintain similar lists.

The following list includes the major government agencies in the state that currently have web sites, as of 12/31/98. It will be out of date shortly after publication of this directory. For current listings, go to the state web site at <http://www.state.ms.us>.
